INDEX TO VOLUME 55, 2004

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
*= Case-Oriented Paper

Abboud, N. E.:
(*see* Maddah, B. S.)

*Abdelaziz, F. B., Martel, J. M. and Mselmi, A.:
IMGD: an interactive method for multiobjective group decision aid, 464

Abramson, D.:
(*see* Beasley, J. E.)

*Adamides, E. D., Stamboulis, Y. A. and Varelis, A. G.:
Model-based assessment of military aircraft engine maintenance systems, 957

Adlakha, V. and Kowalski, K.:
A simple algorithm for the source-induced fixed-charge transportation problem, 1275

Allahverdi, A.:
(*see* Sotskov, Y. N.)

*Al-Marsumi, M. and A'zoza, O.:
LP modelling of the finishing hot rolling programme for low carbon steel coils, 579

Altman, E.:
(*see* Ching, W.-K.)

*Amouzegar, M., Tripp, R. S. and Galway, L. A.:
Integrated logistics planning for the air and space expeditionary force, 422

Angulo-Meza, L.:
(*see* Estellita Lins, M. P.)

Anjos, M. F., Cheng, R. C. H. and Currie, C. S. M.:
Maximizing revenue in the airline industry under one-way pricing, 535

Antunes, C. H.:
(*see* Neves, L. M. P.)

Appa, G., Magos, D. and Mourtos, M.:
A Branch & Cut algorithm for a four-index assignment problem, 298

Archetti, C. and Speranza, M. G.:
Vehicle routing in the 1-skip collection problem, 717

Arda, Y.:
(*see* Barbarosoğlu, G.)

Armentano, V. A.:
(*see* Arroyo, J. E. C.)

Arroyo, J. E. C. and Armentano, V. A.:
A partial enumeration heuristic for multi-objective flowshop scheduling problems, 976

Arunachalam, R.:
(*see* Roy, R.)

Atak, M.:
(*see* Etiler, O.)

Atkinson, J. B.:
On the economic tender quantity, 884

A'zoza, O.:
(*see* Al-Marsumi, M.)

Bachman, A. and Janiak, A.:
Scheduling jobs with position-dependent processing times, 257

Bandelt, H.-J., Maas, A. and Spieksma, F. C. R.:
Local search heuristics for multi-index assignment problems with decomposable costs, 694

*Barbarosoğlu, G. and Arda, Y.:
A two-stage stochastic programming framework for transportation planning in disaster response, 43

Barbosa-Póvoa, A. P. and Vieira, C. M. C.:
Optimal scheduling of batch industrial facilities, 116

*Barr, G. D. I. and Kantor, B. S.:
A criterion for comparing and selecting batsmen in limited overs cricket, 1266

Bazargan-Lari, M.:
Flexible *versus* fixed timetabling: a case study, 123

Beasley, J. E., Krishnamoorthy, M., Sharaiha, Y. M. and Abramson, D.:
Displacement problem and dynamically scheduling aircraft landings, 54

Beck, M.:
(*see* Riddington, G.)

Berman, O. and Huang, R.:
Minimum collection depots location problem with multiple facilities on a network, 769

Boctor, F. F.:
(*see* Renaud, J.)

Bowie, C.:
(*see* Harper, P. R.)

*Brailsford, S. C., Lattimer, V. A., Tarnaras, P. and Turnbull, J. C.:
Emergency and on-demand health care: modelling a large complex system, 34

*Brennan, J. F. M. and Denton, A. L.:
COMPASS—the verification and validation of an operational analysis model for use in the prediction of Nimrod MRA4 operational effectiveness, 413

Brimberg, J., Mladenovic, N. and Salhi, S.:
The multi-source Weber problem with constant opening cost, 640

Brockett, P. L., Cooper, W. W., Kumbhakar, S. C., Kwinn Jr, M. J. and McCarthy, D.:
Alternative statistical regression studies of the effects of Joint and Service Specific advertising on military recruitment, 1039

Brown, S. I., McGarvey, R. G. and Ventura, J. A.:
Total flowtime and makespan for a no-wait *m*-machine flowshop with set-up times separated, 614

Brugha, C. M.:
Structure of multi-criteria decision-making, 1156

Buscher, U. and Lindner, G.:
Ensuring feasibility in 'a generalized quantity discount pricing model to increase supplier's profits', 667

SUBJECT INDEX

(This index includes all *papers*)

Access models 529
Accidents 606
Adaptive age replacement strategies 1281
Adaptive staffing 233
Advertising 1039
A&E 34
Aggregation 333
Agriculture 561
Air traffic control 54
Air transport 535, 760
Allocation 403, 561
Analytic hierarchy process 869
Ant colony optimization 705
Application 836
Application areas (BA: Banking) 1102
Assignment 1333
Assurance regions 814, 1256, 1363
Augmented Lagrangian multiplier method 73
Automotive industry 1145

Balancing assembly lines 589
Bank branches 1111
Batch-processing machine 630
Batting average 1266
Bidding 884
Bin packing 705
Bond energy algorithm (BEA) 737
Branch and bound 247, 547, 769
Branch & Cut 298
Buyer–vendor coordination 667

Calculus of moments 1218
Call centres 1352
Campaign 333
Case-based reasoning 139
Cclassification 911
CCR model 1187
Cell formation problems 737
Change management 440
Channel cooperation 240
Cluster analysis 521
Clustering a matrix of attributes 737
Coalition interoperability 350
Combat 333
Combat support 422
Combinatorial optimization 547, 976, 1323, 1333
Complex projects 598
Computational analysis 257, 694, 976
Content analysis 911
Contingency factors 12
Continuous space 640
Control 219
Coronary heart disease 529
Cost benefit analysis 403
Cost–benefit 606
Cricket 749, 1266
Crisis response operations 350
Crossdock 1342
Customer lifetime value 860
Cutting stock 705
CW Churchman—biography 1123
CW Churchman—obituary 1123

Data clustering 976
Data envelopment analysis 23, 170, 265, 521, 814, 911, 1039, 1059, 1081, 1090, 1111, 1187, 1256, 1311
Data envelopment analysis: Malmquist index 1071
DEA 911, 1008, 1023, 1049, 1059, 1064, 1363
DEA model selection 521
Decision analysis 1130
Decision analysis: sequential decision making 988
Decision support 12
Decision support systems 1208
Decision-making 340
Defence 319, 375, 403, 957
Defence planning support 350
Defence studies 340, 413
Delivery lags 211
Deteriorating items 495
Deteriorating jobs 198
Deterioration 892
Developing country 1145
Development 1145
Disassembly systems 287
Discount purchasing 667
Discrete event simulation 34
Displacement problem 54
Distributed models 622
Distribution 1137
Distribution fitting 1218
DN group decision support 453
Documental analys 361
Due-date 198
Dynamic programming 247, 892
Dynamic programming: Markov process 988

Econometrics 822
Economic efficiency 814
Economic tender quantity 884
Economics 211
Economies of scale 23
Efficiency 23, 265, 521, 1187, 1363
Efficiency analysis 911
Efficiency/productivity analysis 82
Efficient consumption 1064
Electricity 1130
Emergency and on-demand health care 34
Energy 968
Environmental studies 287
Evaluation 1256
Evolutionary algorithm 179
Exact algorithm 547

Facilitation 453
Facility layout 73
Farrell efficiency measures 1023

FDH 1059
Feature weighting 361
Finance 1169
Finishing hot rolling 579
Fixed charge 1275
Fixed cost 640
Flowshop 277, 614
Flowshop scheduling 976
Fluctuating cost 495
Force structure assessment 350
Forecasting 431
Forestry 814
Free disposal hull 170, 1059
Fuzzy logic 103
Fuzzy weights 312

Generalized likelihood ratio statistic 233
Genetic algorithms 132, 504, 830
Geographical information systems 836, 1137
Geometrical approach 277
Goal programming 869
GOMPERTZ distribution 1358
Government 319, 403
Greedy add heuristic 179
Group decision aid 464
Guided local search 1323

Healthcare modelling 529
Healthcare resources 657
Heuristic algorithms 717, 1275
Heuristic, knapsack 1323
Heuristics 2, 147, 287, 589, 614, 671, 687, 694, 760, 780, 936, 976, 1178, 1243, 1342
History of OR 1123
Hospital management 657
Hospitals 1071
Hybrid flow-shops 504

Ideal/optimal solution 312
Impact of conscription 350
Imprecise data 1363
Information and computing technology 23
Integer programming 116, 123, 187, 298, 403, 422, 614, 836, 1333
Inventory 211, 495, 647, 667, 671, 892, 902
Inventory analysis 1218
Inventory control 431, 485
Investment analysis 1169
Investment appraisal 390

Job shop problem 780
Johnson's rule 1358
Judgement 390
Just-in-time scheduling 1342

Kanban 485
Knapsack problem 187, 547
Knowledge-based systems 139

Lagrangian relaxation 769
Landscapes 687
Learning effect 257
Libraries 1256
Linear multi-level programming problem 312
Linear programming 298, 1169, 1187
Litigation 598
Local optima 687
Local search 694, 737
Location 769, 561
Logistics 475, 1298
Lot-sizing model 667
LP modelling 579

Machine scheduling 1342
Maintenance 139, 647, 957
